

You can focus on the results.
We'll bring the people.

TO GET THE JOB DONE

Techconsult is the link between skilled people and demanding tasks. You can count on us to deliver staffing, recruitment and workforce solutions within engineering, construction, and project management disciplines. Our ambition is to become a key partner in our client's human resources and technical staffing value chain.

Most of our recruiters are DNV-certified, assuring our clients of professionalism, objectivity, and consistently high service standards.

THE LINK BETWEEN SKILLED PEOPLE AND DEMANDING TASKS

Techconsult is a Norway-based recruitment solutions agency serving the engineering community including project planning and technical administrative services & support.

With over 25 years' experience in industrial, engineering, energy, marine and offshore recruitment and resource management,

Techconsult is ideally placed to act as your workforce partner of choice. You can depend on us to tailor our solutions to your specific project needs.

With Techconsult, you will be assigned an experienced recruiter who will be your first point of contact and partner in all activities, following-up regularly for as long as necessary. We have a thorough understanding gained from hands on knowledge and long standing experience of the sector.

We make it our business to keep abreast of current market trends and requirements and where suitable candidates are to be found.

Our network of professionals is worldwide, giving us the reach to be able to source the skills, expertise and experience you need, when you need it.

Techconsult has between 250 and 300 consultants active worldwide at any one time.

Techconsult has offices in Oslo, Bergen, and Stavanger. Through our mother company AGR Consultancy and the ABL Group network, you gain access to our skill pool at more than 77 offices in over 44 countries.

ENGINEERING AND PROJECT DISCIPLINES

Techconsult can offer clients many alternatives within the engineering and project services disciplines. Our highly qualified engineers, technicians and draftspersons are experienced in most industrial sectors and disciplines:

- Offshore & Energy, Power
- Process
- Marine & Ship Construction
- Mechanical Engineering
- Advisory
- Civil Engineering

Our consultants carry out all categories of work, from complex calculations and analyses to design, construction, engineering drawing and documentation.

Our main disciplines are:

- Pipes and piping
- Steel structures and outfitting
- Process
- Subsea
- Machinery and mechanical
- Marine technology
- Electronics / instrumentation
- Automation
- Technical safety
- Telecommunications / IT
- Civil engineering
- HVAC

We are involved in all project phases, from pre-study, design and engineering to fabrication, commissioning, operation, production and maintenance.

PROJECT ADMINISTRATIVE DISCIPLINES

Having the right resources available in-line with project resourcing requirements and the ever changing needs of a dynamic business environment is critical in any project.

Techconsult's highly qualified staff include economists, accountants, lawyers and engineers with long, solid and relevant experience in their respective fields.

We analyse our clients' organisations and offer professional assistance in the following areas:

- Project administration
- Project management
- Production planning and cost control
- Procurement
- Material administration and logistics
- Document control and management
- Contract and contract supervision
- Quality assurance and control
- HSE

DEGREES OF COOPERATION AND REFERENCES

Techconsult has long standing experience in the running and administration of large framework agreements and resource management programmes. In close cooperation with our clients, we are able to identify the optimal strategy for complex and varied resource requirements for shorter and longer periods.

Our concept of teamwork crosses the traditional boundaries normally associated with consultancy services and includes the following:

- Recruitment for permanent positions
- Try & hire
- Management and resource team for larger tender work
- Training and qualifying initiatives
- Trainee solutions
- Long term resource planning
